

# Will Your Money Last?

A Custom Solution® for Retirees

## *Outliving your savings wasn't part of your Retirement Plan*

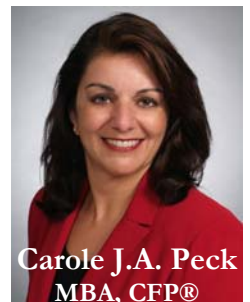

With recent economic events, it's now more important than ever to assess your situation to help avoid the risk of overspending and outliving your savings and investments. Let us help you make the most of your retirement years.

- **Are you as confident about your savings today as you were on the day you first retired?**
- **Will you be able to afford the rising costs of health care, food, and energy?**

We will present a clear and detailed illustration of how long your assets are estimated to last based on an age you select. Unexpected scenarios are included to help you plan for unforeseen events.

You will immediately know if you need to make any changes in your financial plan. The earlier you make changes, the better chance you will have to improve your long-term outcome.
